## CAREER OBJECTIVE

Dedicated fresher with strong interest in web development, programming, and AI technologies. Looking for an opportunity to start a professional career where I can improve my skills, contribute to projects, and grow as a software engineer.

## EDUCATION

### Diploma, Computer Science & Engineering

Government Polytechnic Mumbai

2024 - 2027

### Secondary (X), Maharashtra State Board Of Secondary And Higher Secondary Education

Guru Nanak High School

2024

Percentage: 90.00%

## TRAININGS / CERTIFICATIONS

### Database Management System

Aug 2025

infosys, Virtual

I have completed Database Management System from an Infosys Springboard and it was nice experience and i learnt too much thing like how actually data is managed in companies.

## PORTFOLIO

[Portfolio link ↗](#)

[GitHub link ↗](#)

## PROJECTS

### [SmartNote ↗](#)

May 2026

Developed a scalable full-stack Notes Application using the MERN stack with JWT-based authentication, dynamic note management (CRUD), search, and tagging features. Designed a responsive UI with Tailwind CSS and deployed the application on Vercel and Render for seamless performance across devices.

### [Interview PrepAI ↗](#)

May 2026 - Present

An AI-powered interview preparation platform that generates role- and experience-specific interview questions with high-quality answers and explanations. Designed for structured learning, quick revision, and focused interview readiness.

Key Features:

- > AI-generated interview questions based on role & experience.
- > Instant concept explanations using AI.
- > Save & manage interview sessions.
- > Pin important questions.
- > Load more questions dynamically.
- > Authentication & Firebase

## SKILLS

### [Java Console Bank \(OOP\) ↗](#)

Aug 2025 - Sep 2025

Overview: Created a console-based banking application in Java that simulates real-world banking operations such as account creation, balance management, and transaction handling. Create new customer accounts. Deposit and withdraw balance with validation. Display account and bank details. Interactive menu-driven interface. Implemented using Object-Oriented Programming (OOP) concepts. Tech Stack: Java | Core Java (Classes, Objects, Methods, Scanner I/O, Control Flow).

- HTML 5
- JavaScript
- MongoDB
- Database Management System (DBMS)
- Web development
- CSS
- MySQL
- Node.js
- React
- Java
- Express.js
- Tailwind CSS
- Framer

#### EXTRA CURRICULAR ACTIVITIES

- Leadership Experience
  - Served as Class Representative (CR) during 2nd and 3rd semesters during diploma, coordinating communication between students and faculty and managing class-related activities.

#### ADDITIONAL DETAILS

- Achievements & Participation Participated in 6+ technical events and competitions related to programming and technology. Actively engaged in coding challenges, technical quizzes, and innovation-based competitions.
